Please note that certain terms contained in Attachment RR-AG-5(19) are confidential, and therefore, a redacted version of the agreement is provided herewith for the public record. The Company has provided a confidential version of the Agreement to the Department and to the Attorney General subject to a non-disclosure agreement.

The Attorney General's record request also seeks Department orders approving these contracts. Attached as RR-AG-5 (20) is the Department's approval of the ANE contract for Boston Gas. Boston Gas Company, D.P.U. 91-156 (1991). The Company sought the Department's approval of this contract because it is a "bundled" contract for capacity and gas supply, and therefore, required approval at that time under G.L. c. 164, 94A. Prior to the Department's issuance of its unbundling order in Gas Unbundling, D.T.E. 98-32-B (1999), the Department did not require gas companies to obtain approval of capacity-only contracts.

With the exception of the ANE contract, the contracts listed above are for storage and transportation services and pre-dated the Department's ruling in D.T.E. 98-32-B. Accordingly, the Department reviewed the need for these contracts within the context of historical supply plan proceedings, and did not require the Company to seek any approval separate from the supply plan.
